

Invited Keynote 2008-2009

- **In-situ cosmogenic isotopes revealing secrets landslide frequencies and hillslope erosion.** The Hong Kong Geological Society Meetnig, Hong Kong, 8 May 2008. David Fink
- **AMS in Rome 2008: past perspectives and future views Plenary.** 11th International Accelerator Mass Spectrometry Conference Rome, 19 September 2008. David Fink
- **Timing of the Complexity of Agriculture in Gansu, NW China.** 50th Anniversary Symposium on Archaeometry, for University of Science and Technology of China, Hefei, 23rd September 2008. John Dodson.
- **Early Bronze in NW China.** International Conference on Civilisation and Bronze. Tongling City, Anhui, China, 24th September 2008. John Dodson.
- **Applicability of surface area normalised distribution coefficients (K_a) in interpreting measurements of radionuclide sorption.** South Pacific Environmental Radioactivity Association conference (SPERA 2008). University of Canterbury, Christchurch, NZ, 26th November 2008. Timothy E. Payne, Vinzenz Brendler, Cordula Nebelung and M. Josick Comarmond.
- **Real-time measurements of the stable isotopes in water vapour by Fourier Transform Infrared spectroscopy.** European Geophysical Union (EGU) General Assembly, Vienna, Australia, 19-24 April 2009. Stephen D. Parkes, David W.T. Griffith, Adrian Element, Carol Tadros, Vanessa Harverd, Stephen R. Wilson, Alastair Williams,
- **Over 10 years of IBA characterisation and PMF source apportionment of fine particle pollution in Australia.** The 4th Australian and New Zealand Aerosol Workshop, Lucas Heights, Sydney, 16-18 July 2008. David D. Cohen, Eduard Stelcer, Michael Prior.
- **Baseline and non-baseline radon-222 observations for climate and air quality studies; a review.** IAEA/WMO Technical Meeting on Sources and measurements of radon and radon progeny applied to climate and air quality studies, IAEA Headquarters, Vienna, Austria, 22-24 June 2009. Wlodek Zahorowski
