Le, V. S., Oehlke, E. Effect of anions on Ga-68 purification and radiolabelling. 20th International Symposium on Radiopharmaceutical Sciences (ISRS2013), 12-17 May, 2013, Jeju International Convention Center (Jeju ICC), Jeju Island, Korea. In Journal of Labelled Compounds and Radiopharmaceuticals, 56 (S1), S123 (2013).

Pascali, G., Berton, A., Salvadori, P. Hardware modifications for achieving process flexibility on a microfluidic Advion system. 20th International Symposium on Radiopharmaceutical Sciences (ISRS2013), 12-17 May, 2013, Jeju International Convention Center (Jeju ICC), Jeju Island, Korea. In Journal of Labelled Compounds and Radiopharmaceuticals, 56 (S1), S142 (2013).

Wimberley, C., Reilhac, A., Boisson, F., Fischer, K., Gregoire, M-C. Using parametric mapping with the Partial Saturation Approach to investigate small D2 receptor density changes. Society of Nuclear Medicine and Molecular Imaging 2013 Annual Meeting (SNMMI2013), 8-12 June 2013. Vancouver, BC, Canada. 2042

Wimberley, C., Reilhac, A., Boisson, F., Fischer, K., Gregoire, M-C. Investigating the detectability of small D2 receptor density variations on B'max parametric mapping with the Partial Saturation Approach. 11th International Conference on Quantification of Brain Function with PET (BRAINPET2013), 20-23 May 2013. Shanghai, China.
