

The funding allocation to students is to be selected by the AANSS2024 committee, subject to AINSE approval, to support travel in a fair, diverse, and equitable fashion, ensuring that:

- Students from all AINSE member organisations can apply; and
- At least one suitable applicant from each university is given priority for funding, to distribute the funding across as many AINSE member organisations as possible; and
- The full funding amount is utilized where possible for student support; and
- That the selection process adopted does not exhibit favouritism or bias.

ANBUG-AINSE Neutron Scattering Symposium 2024 student travel form:

AANSS2024 is proudly sponsored by AINSE and ANBUG. Please complete this form if you are currently studying and would like to be considered for travel funding to attend AANSS2024.
