

POSITION DESCRIPTION

Position Title:	Operations Administrator Nuclear Science and Technology (NST) / Strategic Research Services and Engagement (SRSE)
Cluster / Business Unit / Division	
Section or Unit:	Research Office
Classification:	Band 4
Job Family:	Administration
Position Description Number:	PD-2425
Work Contract Type:	Administration
STEMM/NON-STEMM:	NON-STEMM

POSITION PURPOSE

The objective of the Operations Administrator is to act as a key connection into ANSTO for internal stakeholders is to actively support internal NST personnel and external stakeholders that engage with ANSTO's Nuclear Science and Technology Division ensuring seamless workflow across the Operations team, focusing on business improvement and exemplary customer service across NST's Strategic Research Services and Engagement portfolio.

ORGANISATIONAL ENVIRONMENT

ANSTO leverages great science to deliver big outcomes. We partner with scientists and engineers and apply new technologies to provide real-world benefits. Our work improves human health, saves lives, builds our industries, and protects the environment. ANSTO is the home of Australia's most significant landmark and national infrastructure for research. Thousands of scientists from industry and academia benefit from gaining access to state-of-the-art instruments every year.

Nuclear Science & Technology (NST) incorporates ANSTO's research, innovation, landmark research infrastructure and associated platforms and capabilities. NST conducts research and development in relation to nuclear science and technology and connects people, transfers knowledge, and provides nuclear-based products and services for the benefit of Australia.

NST Strategic Research Services and Engagement (SRSE) provides high quality services to NST and ANSTO and delivers research and research infrastructure outcomes and translates outputs generated from research and development conducted in NST into products, services, and new intellectual property.

ACCOUNTABILITIES & RESPONSIBILITIES

Key Accountabilities

- Provide high quality stakeholder experience by dealing promptly with enquiries and handling issues of concern with creative problem solving. Liaise as necessary with ANSTO personnel and external stakeholders, act as point of contact for external NST visitors/users (as appropriate)
- Develop and build a strong understanding of relevant ANSTO systems and portals to support NST requirements such as but not exclusive to SAP, IBP, ANSTO intranet and internet, ANSTO Research portals, (ARP, ACNS), Concur, Microsoft suite, LMS and new systems that are introduced.
- Assist with the recording of training in LMS for Users.
- Provide administrative support, including but not limited to, capturing and collating documentation and outcomes, proposal funding, disseminating information to stakeholders, facilitating user/visitor travel, meetings, and communications.

- Be creative and solution focussed when identifying areas for efficiencies and enhancements through adoption of process improvement measures in all activities with the ability to translate the changes to coach and train other NST stakeholders.
- Support NST workshops as required – onboarding of participants, inductions, issuing EPDs, and supporting workshop related functions.
- Participate in provision of training to cross-skill members of the team on a local level, NST and work across other business units to effect and influence strong and robust business practices.
- Provide financial assistance to NST by preparing quotations and invoicing as requested, assisting with raising internal orders and purchases in accordance with ANSTO policies and procedures and processing ad-hoc payments.
- Ensure effective operations, enterprise systems, stocktake, scheduling of maintenance of office infrastructure for NST offices.
- Well-developed written and oral communication skills with a collaborative mindset, able to take on new information and perspectives and incorporate these into workable solutions and standard operating procedures that have garnered support and buy-in by stakeholders.
- Lead the creation and maintenance of Standard Operating Procedures across SRSE that benefits all ANSTO stakeholders as many of these transcend NST operations and impact the broader organisation such as but not limited to inductions.
- Undertake additional duties as required and during period of leave of other staff.

Decision Making

- Determine key work priorities within the context of agreed work plans and will consult with the Operations Lead on complex, sensitive and major issues that have a significant impact on the Strategic Research Services and Engagement Team and NST.
- The levels of authority delegated to this position are those approved and issued by the Chief Executive Officer. All delegations will be in line with the ANSTO Delegation Manual AS-1682 (as amended or replaced).

Key Challenges

- Influencing, creating and executing the successful implementation of process improvement across core functions (user, operations, and research) that support NST activities.
- Develop an understanding of the support functions user, operations, and research activities and grow cross-skilling mindset and performance.
- Ensuring good customer service including efficient response times in peak workloads with resource constraints.
- Become a skills ambassador, knowledge share areas of strong development to grow internal skills within the team and across NST stakeholders.
- Embrace change and be a creative problem solving, whilst in a period of increasing demands and resource constraints.
- Move away from ad-hoc service provision to a consistent and sustainable service model to all NST business units and external stakeholders across both campuses.
- Being part of a change program requires influencing, flexibility, consultation and a solutions focussed mindset with many stakeholders adverse to change.
